

Connection to a Network license

Caution:

- 1/ Connecting to a network license requires that it has already been activated by following the procedure [Activating a network license](#)
- 2/ To install Phase Manager it is **highly recommended to have administrator rights**
- 3/ To use the license it is necessary to **MODIFY rights on the UNC license directory**

1/ Installation of Phase Manager

Download Phase Manager (click here for last release). **Right click** on the executable than run it with **Administrator rights**

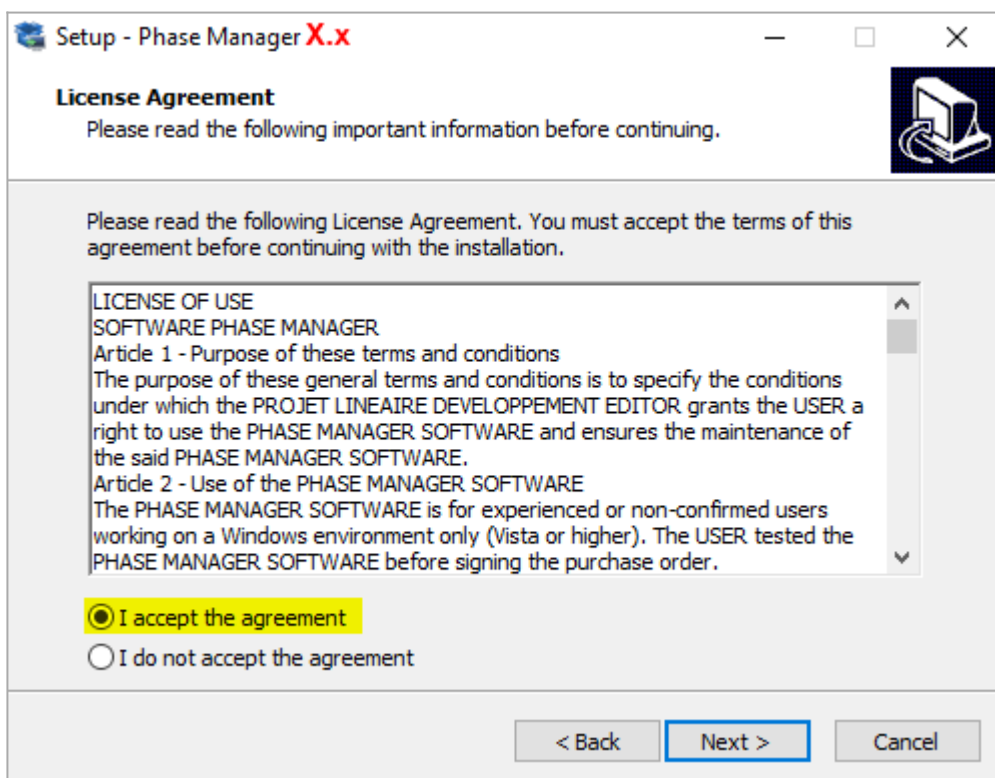

Once launched, choose the installation language:

Skip the welcome screen by clicking on **Next** :

Read then accept the license agreement to continue the installation by clicking on **Next** :

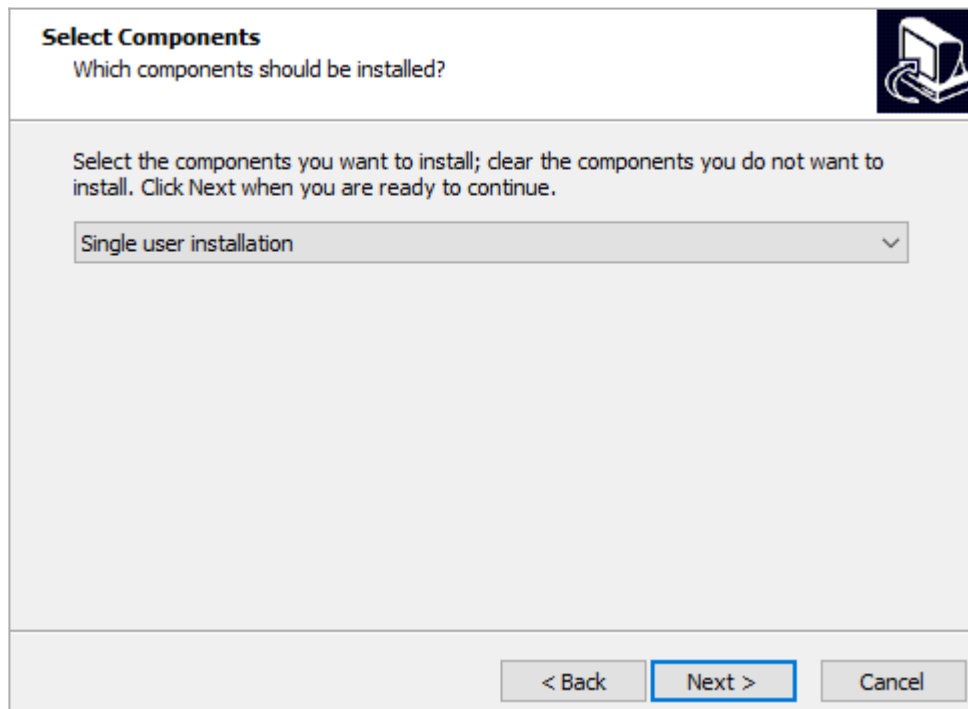

By default the setup will ask you to install Phase Manager in : **C:\Program Files (x86)\PhaseManager X**
If you didn't launch it with admin right , it will propose you to install Phase Manager in :

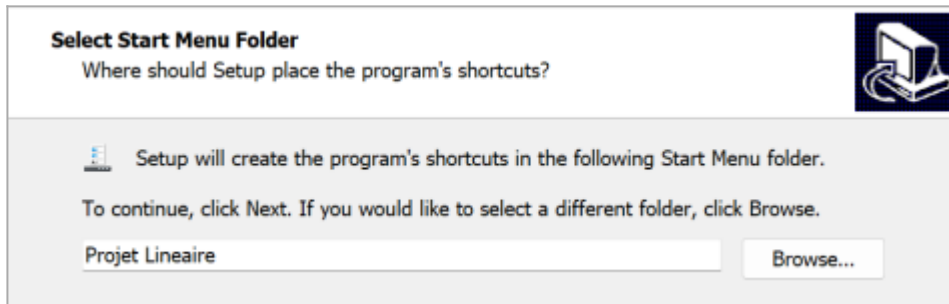

C:\Users\Public\Documents\PhaseManager7

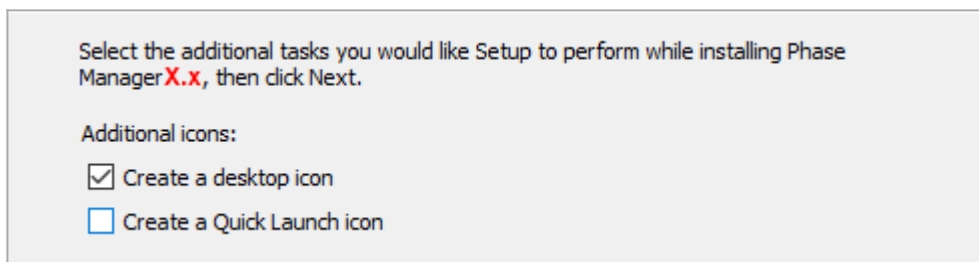

Choose '**Single user installation**'

Validate the Start Menu Folder screen by clicking on **Next** :

Choose and validate the icons creation screen by clicking **Next** :

On the following screen click on **Install** then once installation is complete, click on **Finish**

2/ Connection to the network license

Once Phase Manager is installed, double-click on its icon to launch it.

At first launch, the license configurator will display:

To connect to your network license, you will need to fill in the following fields:

Module

Choose **Network** | **Réseau**:

FYI : If you want to test Phase Manager for 14 days, choose 'Demo'.

Product ID

Fill in the Product ID that's been sent to you by Projet Linéaire:

- licence pattern : LPMM-00**NNN**0 **X** 00abcDEF (**NNN** is the number of your license, and **X** the version)
- **only paste the right part of your Product-ID, after the '-'**

Activation key

Fill in the Serial number sent to you by Projet Linéaire or reseller.

Licence

Tick “*Choose a licence*”, then **indicate the location of the license file**: Indicate its UNC path using the

following pattern : `\\SERVER\SHARE\FOLDER**`:

Click now on the button Launch to run Phase Manager.
