

## Standalone license installation and activation

### Attention :

To install Phase Manager it is **highly recommended to have administrator rights**

### 1/ Installation of Phase Manager

Download Phase Manager. **Right click** on the executable than run it with **Administrator rights**

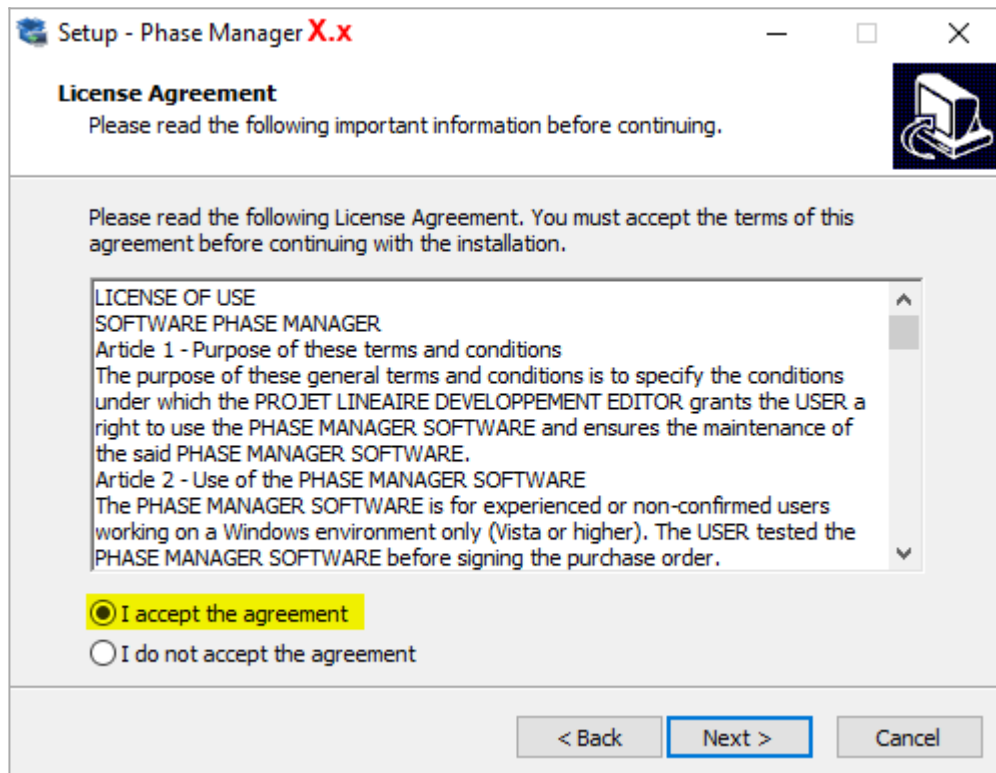

Once launched, choose the installation language:

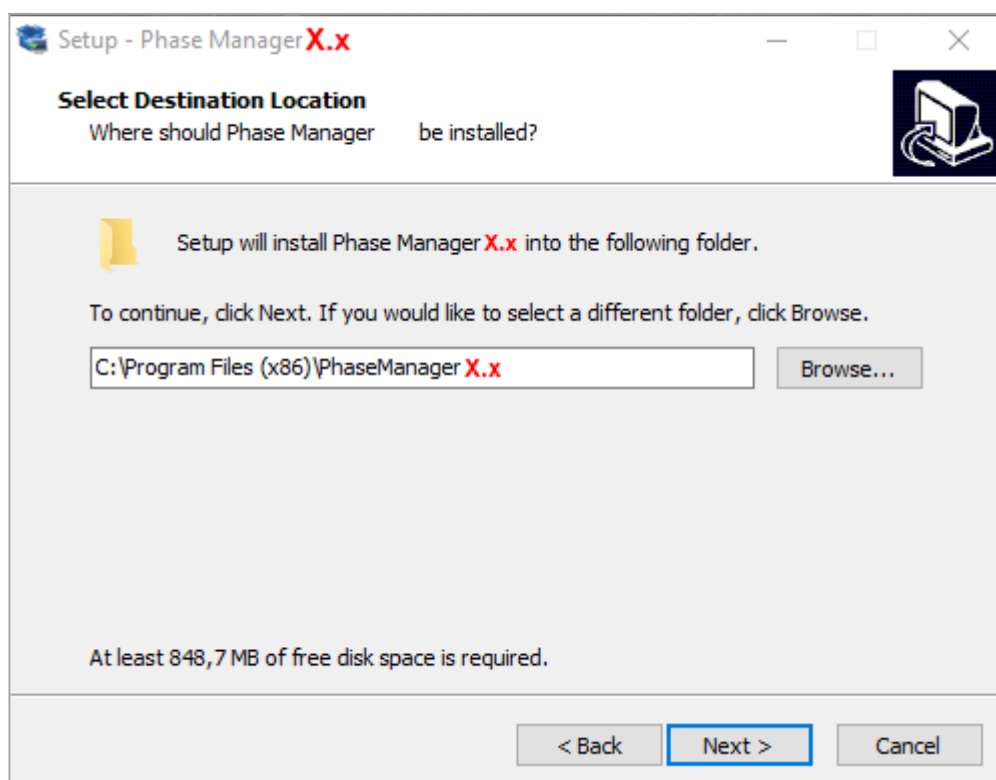

Skip the welcome screen by clicking on **Next** :

Read then accept the license agreement to continue the installation by clicking on **Next** :

**By default** the setup will ask you to install Phase Manager in : **C:\Program Files (x86)\PhaseManager X**  
**If you didn't launch it with admin right** , it will propose you to install Phase Manager in :  
**C:\Users\Public\Documents\PhaseManager7**

Choose '**Single user installation**'

Validate the Start Menu Folder screen by clicking on **Next** :

Choose and validate the icons creation screen by clicking **Next** :

Select the additional tasks you would like Setup to perform while installing Phase Manager **X.x**, then click Next.

Additional icons:

☒ Create a desktop icon

☐ Create a Quick Launch icon

On the following screen click on **Install** then once installation is complete, click on **Finish**

## 2/ Standalone license configuration

Once Phase Manager 5 is installed, double-click on its icon to launch it.

At first launch, the license configurator will display:

The screenshot shows the 'Phase Manager Launcher' window. It has two tabs: 'Licence System' (selected) and 'Java System'. The main area is titled 'Licensing Configuration'. On the left, there is a large black box with the Phase Manager logo and the text 'Licence & Licensing Configuration Settings'. On the right, there are several input fields and buttons:

- Module:** A dropdown menu set to 'Monoposte'.
- Product ID:** A text box containing 'LPMM' and a label 'Your Product ID'.
- Activation Key:** A text box containing 'Your activation key (serial number)'.
- Create new licence:** A radio button that is selected and highlighted with a green box.
- Choose a licence:** A radio button that is not selected.
- Browse:** A button next to a text box containing the file path 'C:\Users\Public\Documents\PhaseManager-Licence'.
- Launch:** A button at the bottom right.

To activate your license, you will need to fill in the following fields:

## Module

Choose **Monoposte** | **Standalone**

## Product ID

Fill in the Product ID that's been sent to you by Projet Linéaire:

- licence pattern : LPMM-00**NNN**0 **X** 00abcDEF (**NNN** is the number of your license, and **X** the version)
- **only paste the right part of your Product-ID, after the '-'**

## Activation key

Fill in the Serial number sent to you by Projet Linéaire.

- pattern : VccQX-37eJG-AZIce-EYk7O-temCP-8DRFu

## Licence

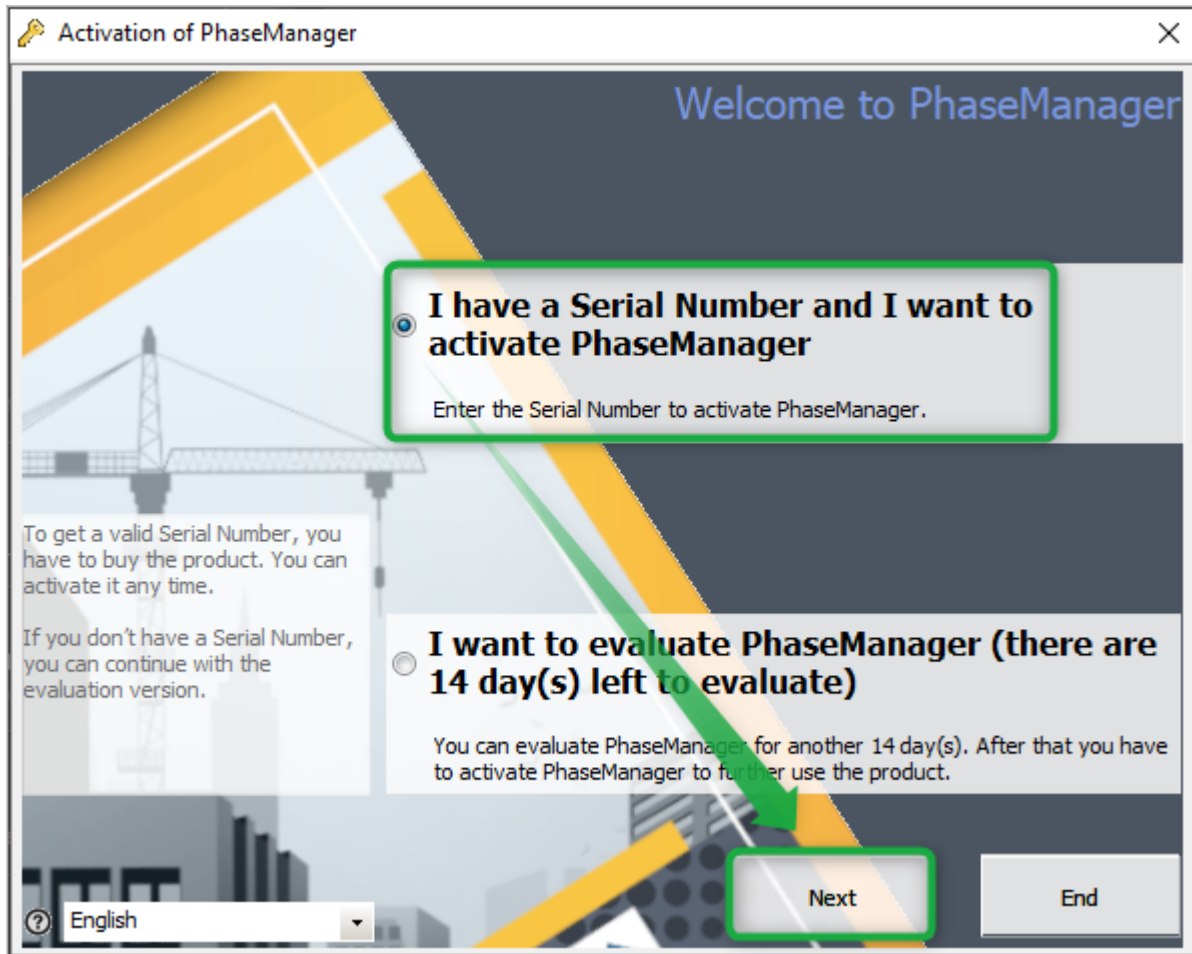

Choose “*Create new licence*”. By clicking on **Browse** you can choose the location of the license file that will be created by Phase Manager : **we recommend to leave the default value.**

## 3/ License activation

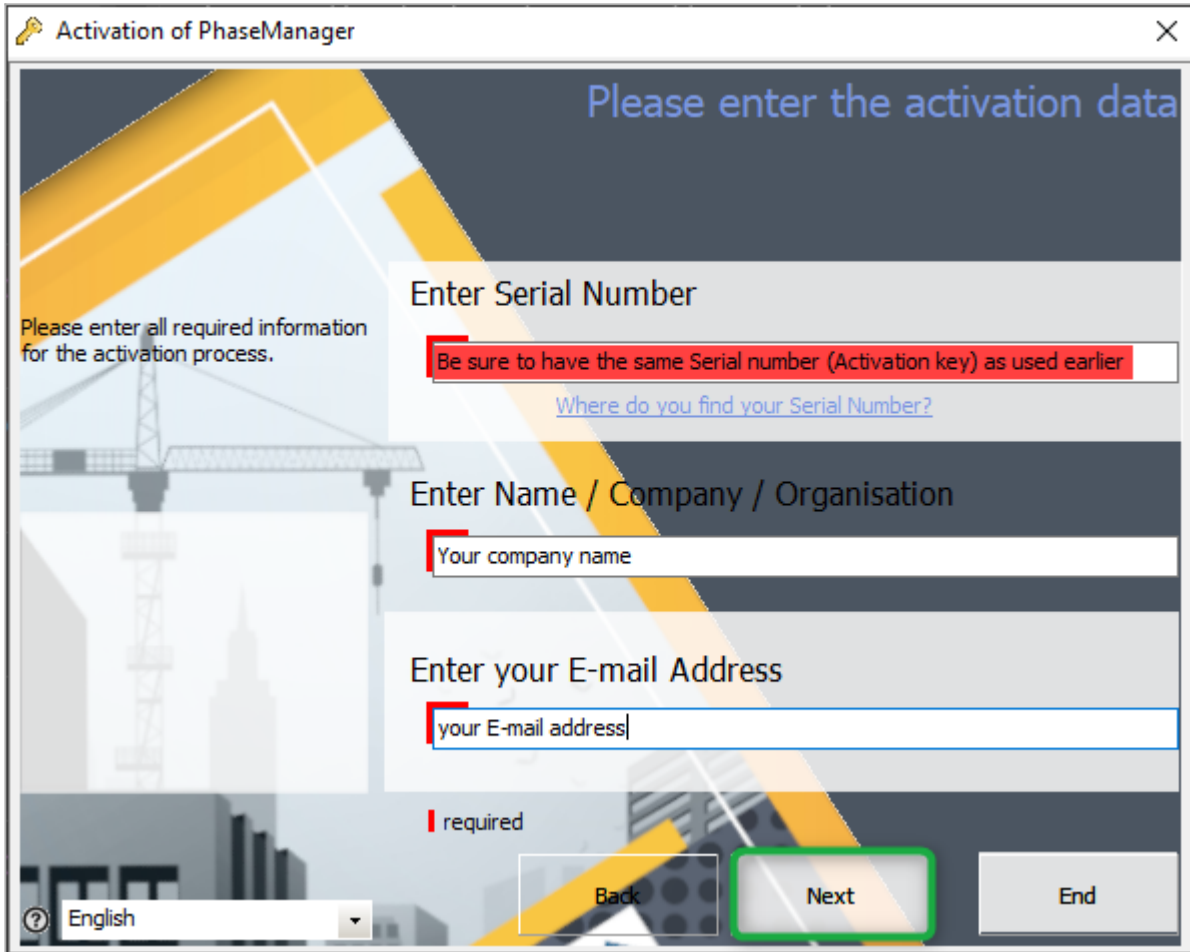

Click now on the button **Launch** to activate your licence.

**Beware : an Internet connection is mandatory to activate the license !**

To activate the license, switch to English then choose the option below and click on **Next** :

- Fill-in all required data then click on Next:
- **The Serial number is the Activation Key that's been used at step 2 in the license configurator**
