

## Standalone license installation and activation

### Attention :

To install Phase Manager it is **highly recommended to have administrator rights**

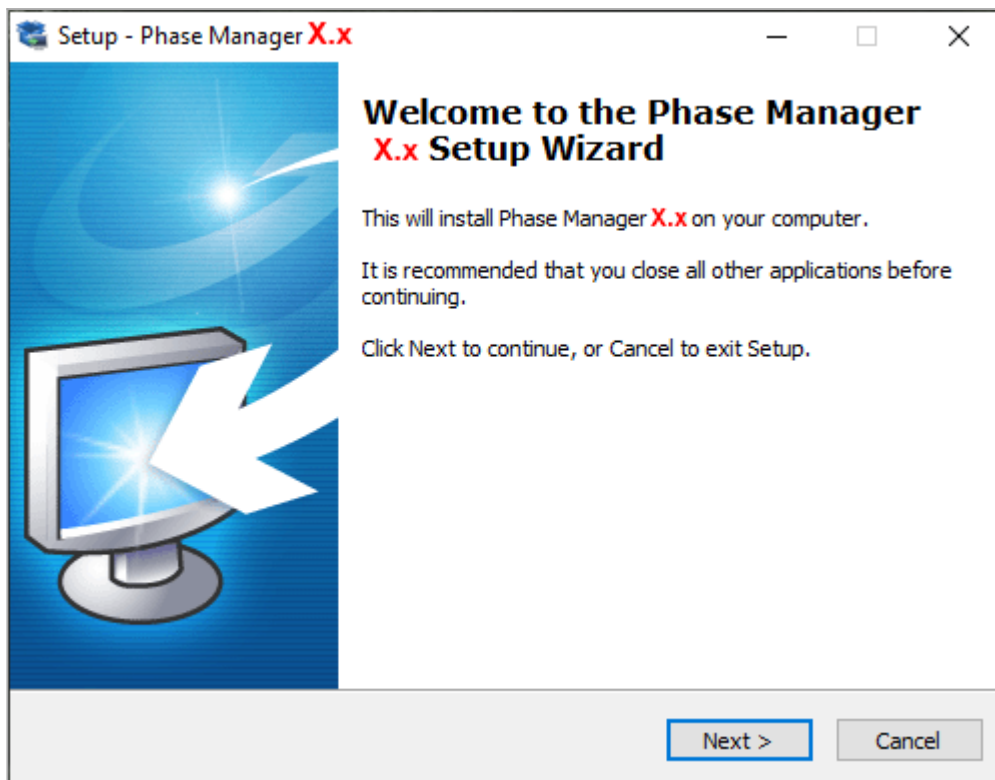

### 1/ Installation of Phase Manager

Download Phase Manager. **Right click** on the executable than run it with **Administrator rights**

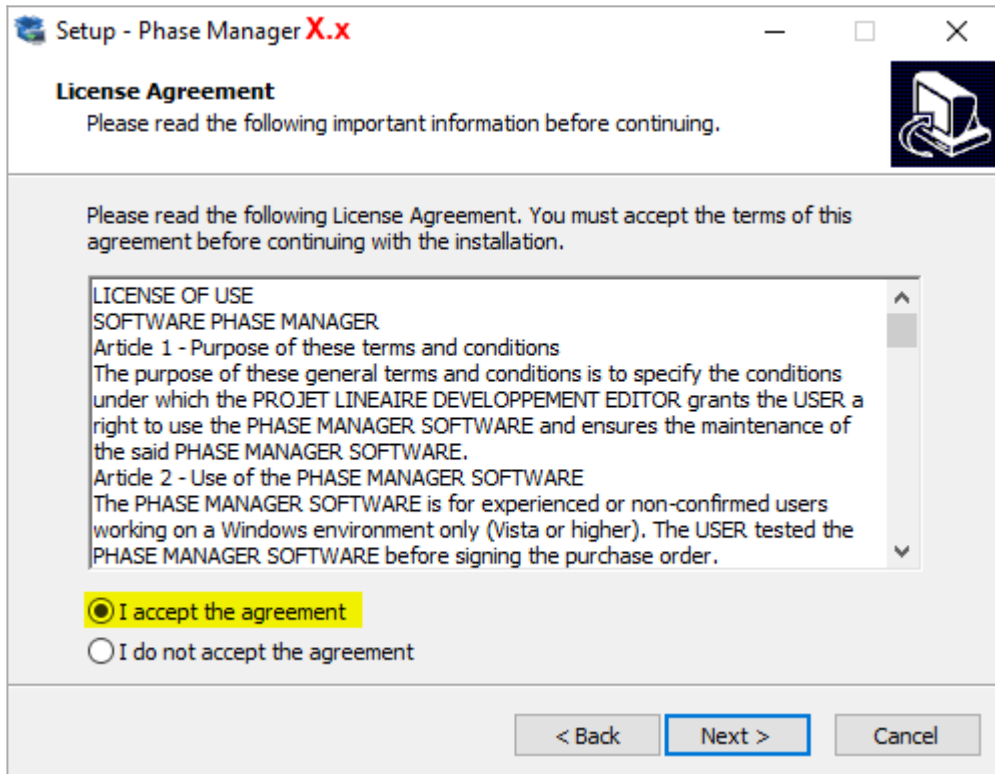

Once launched, choose the installation language:

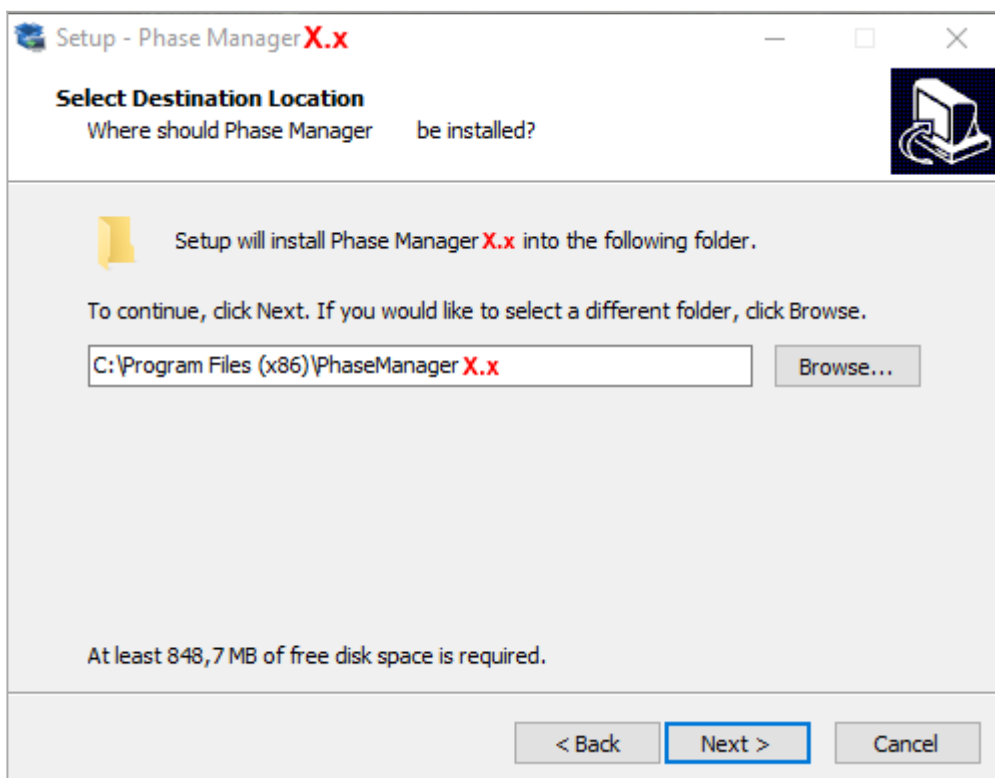

Skip the welcome screen by clicking on **Next** :

Read then accept the license agreement to continue the installation by clicking on **Next** :

**By default** the setup will ask you to install Phase Manager in : **C:\Program Files (x86)\PhaseManager X**  
**If you didn't launch it with admin right** , it will propose you to install Phase Manager in :  
**C:\Users\Public\Documents\PhaseManager7**

Choose '**Single user installation**'

Validate the Start Menu Folder screen by clicking on **Next** :

Choose and validate the icons creation screen by clicking **Next** :

Select the additional tasks you would like Setup to perform while installing Phase Manager **X.x**, then click Next.

Additional icons:

Create a desktop icon

Create a Quick Launch icon

On the following screen click on **Install** then once installation is complete, click on **Finish**

## 2/ Standalone license configuration

Once Phase Manager 5 is installed, double-click on its icon to launch it.

At first launch, the license configurator will display:

The screenshot shows the 'Phase Manager Launcher' window with the 'Licence System' tab selected. The window title is 'Phase Manager Launcher'. The 'Licence System' tab is active, and the 'Java System' tab is also visible. The main content area is titled 'Licensing Configuration'. It contains the following fields and options:

- Module: Monoposte (dropdown menu)
- Product ID: LPMM (text field) and Your Product ID (text field)
- Activation Key: Your activation key (serial number) (text field)
- License selection:  Create new licence and  Choose a licence
- Browse button: C:\Users\Public\Documents\PhaseManager-Licence (text field)
- Launch button (bottom right)

The 'Create new licence' radio button is highlighted with a green box.

To activate your license, you will need to fill in the following fields:

## Module

Choose **Monoposte** | **Standalone**

## Product ID

Fill in the Product ID that's been sent to you by Projet Linéaire:

- licence pattern : LPMM-00**NNN**0 **X** 00abcDEF (**NNN** is the number of your license, and **X** the version)
- **only paste the right part of your Product-ID, after the '-'**

## Activation key

Fill in the Serial number sent to you by Projet Linéaire.

- pattern : VccQX-37eJG-AZIce-EYk7O-temCP-8DRFu

## Licence

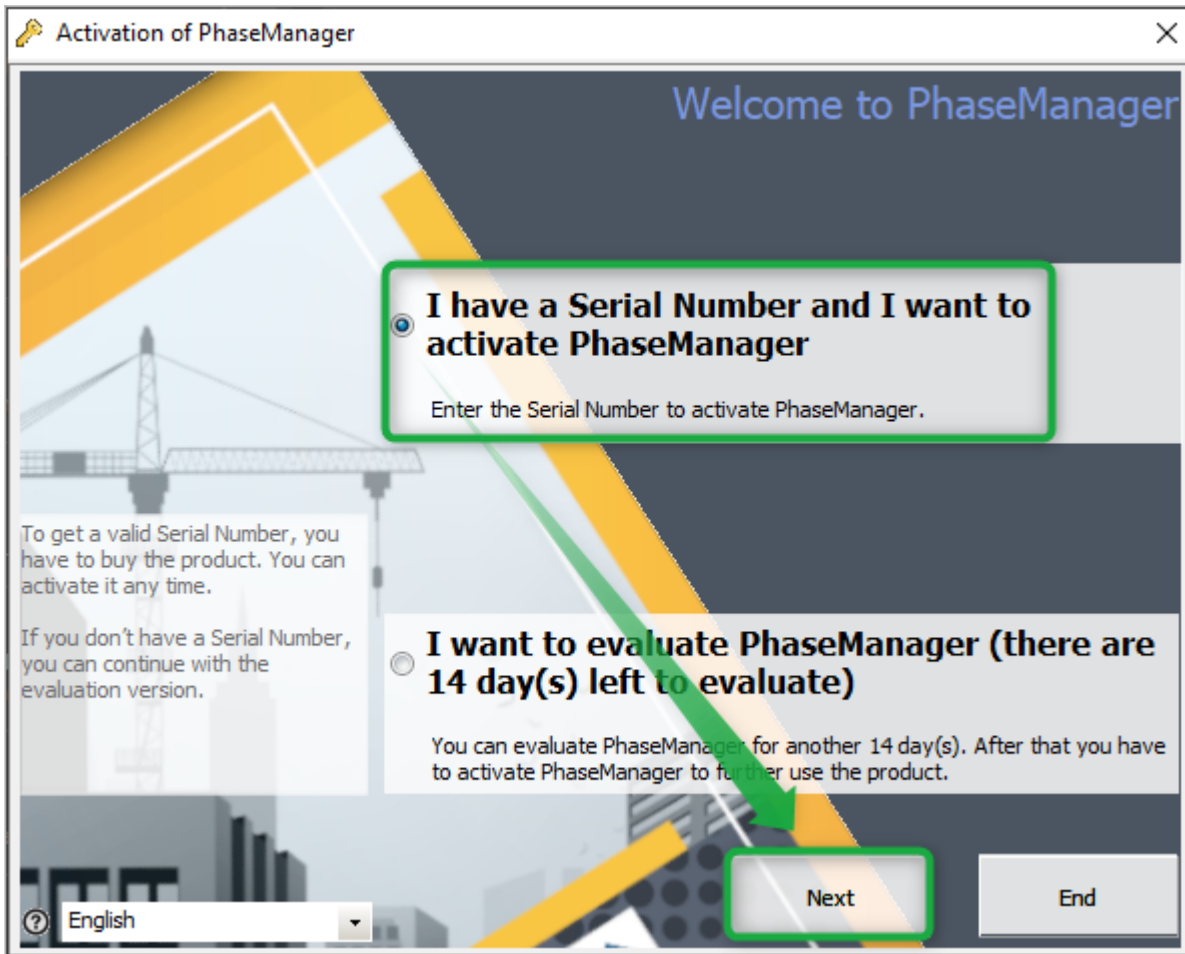

Choose “*Create new licence*”. By clicking on **Browse** you can choose the location of the license file that will be created by Phase Manager : **we recommend to leave the default value.**

### 3/ License activation

Click now on the button **Launch** to activate your licence.

**Beware : an Internet connection is mandatory to activate the license !**

To activate the license, switch to English then choose the option below and click on **Next** :
